To Whom It May Concern:

I would like to take this opportunity to commend Andreas Bigger regarding the week-long Robotics Camp program for students entering grades 6-8 recently held at the Cold Spring Harbor Library. Andreas approached our staff with the idea for this program, which was extremely well planned and organized. He had PowerPoint presentations and written instructions ready for the students, and supplied and coordinated the appropriate number of volunteers.

Our staff was very impressed by his maturity and thoughtfulness. The students in the camp enjoyed a hands-on experience building and programming a robot, and participated in a fun mini robotics competition. Andreas provided them with a great introduction to robotics.

Sincerely,

A handwritten signature in dark ink, appearing to be "Dr. Podell", written in a cursive style.

Dr. Roger Podell
